PROFESSIONAL SUMMARY

Frontend Engineer with 1+ year of experience building SaaS products using Vue.js, React.js, Node.js, and PostgreSQL. Experienced in designing responsive user interfaces, integrating REST APIs and third-party services, and building scalable web applications from frontend to backend.

TECHNICAL SKILLS

Frontend: Vue.js, React.js, JavaScript (ES6+), HTML5, CSS3, SCSS, Typescript, Next.js, Nuxt.js, Astro.js, Tauri Framework, , Quasar Framework, Vuetify, Redux Toolkit, Pinia, Tailwind CSS, Material UI, Responsive Web Design

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, PostgreSQL, Redis, SQL, Prisma ORM

Tools & Platforms: Docker, Git, GitHub, Postman, Vercel, Cloudflare, Browser DevTools, Figma

AI & Productivity: Prompt Engineering, GitHub Copilot, Cursor AI, ChatGPT, AI-assisted debugging & refactoring

WORK EXPERIENCE

Frontend Engineer | [Wiseboxs Softworks Pvt. Ltd.](#) March 2025 – May 2026

- Improved frontend performance and accessibility score of a live EdTech commerce platform from below 60 to 90+, delivering measurable impact on SEO and user experience.
- Developed the complete frontend for a CPaaS platform, implementing RCS messaging interfaces for text, file, rich cards, carousels, and WhatsApp template management.
- Developed key features for Krafon, including Facebook Analytics integration, Instagram account connectivity, authentication flows, SEO improvements, and social media preview generation.
- Implemented complex forms, dynamic rendering systems, file upload workflows, and state management using Pinia and Redux Toolkit across multiple products.
- Worked closely with frontend, backend, QA, and product teams, contributing to sprint planning, code reviews, and production releases.
- Using AI-assisted development tools including ChatGPT, Claude, GitHub Copilot, and Cursor AI for debugging, code optimization, documentation, rapid development, and workflow improvements.

PROJECTS

ReplyZen – Instagram DM Automation Platform [GitHub](#)

- Built a full-stack Instagram DM automation platform using Vue.js, Node.js, Express.js, and PostgreSQL.
- Designed and developed the complete frontend, backend, PostgreSQL database schema, and REST APIs for automation workflows and user management.
- Implemented Instagram account integration using Meta Graph API and webhooks to automate responses based on comments, posts, reels, and stories.
- Developed automation features including keyword triggers, public comment replies with dynamic variables, DM automation (text, images, and links), Follow Gate, Email Gate, and lead management with CSV export.
- Built authentication, automation processing, webhook event handling, and background task execution using Node.js, Express.js, PostgreSQL, Redis, and JWT.

Tech Stack: *Vue.js, Node.js, Express.js, PostgreSQL, Redis, Tailwind CSS, JWT, Meta Graph API, Webhooks, Cloudflare*

Brain Dump – AI-Powered Thought Organization & Productivity App [View](#)

- Built a full-stack productivity application designed to convert unstructured, messy brain dumps into organized tasks using Gemini AI, with a strong focus on delivering a clean, accessible, and mobile-first user experience.
- Implemented an AI-powered organization workflow that analyzes natural-language brain dumps and categorizes individual tasks into Today, Tomorrow, This Week, and Someday timeframes.
- Built an automated task system that automatically rolls over unfinished tasks to the next day or week as deadlines approach. It also easily manages your active, pending, and completed tasks.
- Developed an SEO-focused Astro.js marketing/business website for the product, using Astro's server-first architecture and low JavaScript overhead for performance and SEO.

Tech Stack: *Vue.js, TypeScript, Tailwind CSS, Tauri, Node.js, Express.js, PostgreSQL, Supabase, Prisma ORM, Astro.js*

EDUCATION

Bachelor of Computer Application (BCA) 2021 – 2024

[Management Institute of Durgapur](#) | Rajbandh, Durgapur, West Bengal | **CGPA: 8.14**

CERTIFICATIONS

Full Stack Web Development — [Physics Wallah](#)

- Gained comprehensive knowledge in frontend and backend web technologies.
- Built full-stack web applications using modern frameworks and development tools.
